Karlín is located in the very center of the capital city in Prague 8. This area, which connects Libeň with the New Town and in which the center of the capital city of Prague is combined with the beautiful nature of Rohan Island, certainly has something to offer. Of course, in the neighborhood you will find stylish cafes, various shops, restaurants and pubs, as well as playgrounds and schools. This district is interesting for residents and very good transport accessibility, there is a bus stop "Urxova" and a tram stop "Křižíkova". The metro station "Křižíkova" (B) (only 3 stops from Wenceslas Square) is located in a 3-minute distance. The modern appearance of the district is to some extent influenced by the Vltava River, which, with the destructive force of millennial water, entered the streets of Karlín in the spring of 2002 and definitely changed the appearance of the place. The drama will not be repeated, as Prague has invested in building flood protection measures. On the Rohanské nábřeží, one feels that one is different, more western in the city. Danube House, Nile House, Amazon Court, River Diamond. These are the names of new office buildings located in the fastest growing district of Prague on the banks of the Vltava. This circumstance is also a benefit for investors - apartments are potentially suitable for rent to managers of foreign companies. The photos of the apartment are for illustration only.
