Residential complex is situated in a central city district Prague 8, which connects New Town and Libeň and combines hectic city center with calm nature of the Rohanský Island. All public amenities including stylish coffee shops, restaurants, bars, shops, schools and playgrounds are a matter of course.

Pictures attached are used for illustrative purposes only.

Another advantage of the district is its perfect transport accessibility: bus stop „Urxova“ and tram stop „Křižíkova“ are nearby. Metro station „Křižíkova“ (B) is a 3-minute walk away and just 3 stations away for the Wenceslas Square.

Current lucrative condition of the district was formed as a consequence of the Vltava River flood in 2002, after which most of the buildings were fully reconstructed and renewed. The tragedy will never repeat thanks to the city anti-flood measures.

Rohanské nábřeží area makes one feel they are in another, more western city. Danube House, Nile House, Amazon Court, River Diamond - these are the names of new office buildings, situated in a quickly developing part of the Vltava River. This factor is beneficial for investors - the flats can be potentially rented by foreign companies employees.

They will be ready to move in the 1st quarter of 2020.
