Barrandov is historically associated with nature and Czech cinema. Countless stories have been created in these places, which have been the subject of breathless wonder not only in reality but also in front of the screen. Stories about life, friendship, love and fateful encounters. And these were the inspiration for the creation of a new residential project in Prague. The central idea was to create not only a beautiful place to live, but also a place to meet. To create our own green world where people can live well.

The three residential buildings SEVER, SOUTH and WEST are being built in two stages of construction. With apartments of an exceptional standard with terraces and private gardens. The sought-after location close to nature is enhanced by unique views of the Prague skyline and especially the new park full of greenery, relaxation zones and a natural amphitheatre. A place with all the advantages of city life, excellent civic amenities and fast transport links to the centre of Prague.
